History

(2000-present day)

Our Work – What we do..

Our Core Offerings

- ❖ **Poly Knit (Recycled and Conventional):** With all our facilities being GRS certified and preferred buyer status of recycled yarn from Reliance, we produce more than 50 tons of recycled poly knit fabric per month
- ❖ **Glitter/Foil/Flock and Value Additions:** Working with H&M Kids for more than 5 years now, we have developed an expertise in executing value addition base orders on poly mesh, chiffons and georgettes while meeting all safety norms and parameters (especially so for kids' garments)
- ❖ **Digital Printing:** Our in-house printing setup and design studio helps us not only greatly reduce sampling time, but also execute orders much faster than most suppliers
- ❖ **New quality development:** Our vast network of supplier-weavers helps us source against buyer quality cuttings as well as develop new qualities against mood boards
- ❖ **Recycled Rotary-printed and Dyed fabrics:** Proficiency in 4-point checking system and religious adherence to export norms result in low rejection levels and timely completion of orders
